Introduction

2016 was the year when our collective efforts to have our ethnicity recognised brought us so close to success and much of that momentum came from our members. Our collective passion for this issue could be witnessed by all during the debate at our hugely successful AGM in Cork in September and the actions we took.

The work in 2016 is the last year under the structure of our old strategic plan as a new three-year plan for 2017-2020 was adopted by members at our AGM. I am very proud that we have a clear strategy for the organisation for the future and significant challenge will be to secure resources to carry out an ambitious workplan.

I would like to acknowledge the work of Sara Russell, who worked on our Yellow Flag Programme for two years, and Paula Madden, who was with us since the summer of 2008 and worked on education and drove the development of the Yellow Flag over the last six years. Their contribution to the work of ITM and inclusion has been significant and I wish them all the best in the future. The work of all ITM staff in paid and non-paid roles needs to be recognised in especially challenging times.

I would also like to thank my colleagues in the Central Group for their dedication in managing the organisation and members for their involvement in all our structures and debates.

I finally would like to recognise the work of Bernard Joyce in his first year as Director of the Irish Traveller Movement and on behalf of all ITM members to thank him for his work over the course of 2016.

Thank you all for your support over the year.

Maureen Ward, Chair, ITM.

Cena held its 2016 AGM in November, recruiting three new board directors. All board directors contribute on a voluntary basis and bring skills of particular importance to the work and ethos of the organisation

Yellow Flag Intercultural Schools Programme

- Funding was secured from the Office of Promotion of Migrant Integration, Community Foundation of Ireland along with small grants from Local authority and Partnership to continue the work of the programme.
- During the first half of the year the 5 schools who had begun the programme in Sept 2015 and 6 further schools that began the programme in Sept 2015 but had decided to complete the programme over 2 academic years were also supported to continue their work on the Steps throughout the year. 10 new schools began the programme in September 2016. This meant that the programme by the end of 2016 was impacting on the lives of over 26,000 children in 68 schools across Ireland.
- The Yellow Flag Awards was held in Liberty Hall in April and honoured 13 schools for the work they completed to achieve their Yellow Flag and 6 schools for their work in renewing their flag from schools in Louth, Cork, Dublin, Meath, Kerry, Wicklow and Kildare. The ceremony was jointly hosted by broadcaster author and former RTE children's Elev8 presenter Diana Bunici and Dil Wickremasinghe, broadcaster, actor, and social activist and Musician and Voice of Ireland coach Bressie and the Ombudsman for Children Niall Muldoon were special guests.
- Sarah Russell, who worked with the programme for over 2 years left in March 2016. Paula Madden returned from maternity leave who continued to manage the programme till the end of the year, when she finished up to move onto a new job. Paula had been with ITM since 2008 and had overseen the programme grow from the original pilot with 4 schools in 2008/2009 to having by the end of 2016 68 schools involved in the programme. We wish Paula every success in her future career.

Political Lobbying and Ethnicity Campaign

- ITM's ethnicity campaign in 2016 created greater support for ethnicity TD and Senators. Travellers and local Traveller organisations were supported to lead discussions locally and a cohesive National Traveller organisation position was developed. Cross party support for ethnicity was strengthened and ITM maintained strong links with the Department of Justice and the Minister to advance ethnicity recognition.
- The Taoiseach was lobbied directly by ITM and Travellers personally voiced their desire to have their ethnicity recognised which, linked with European developments, led to the Taoiseach publicly voicing his support for recognition in November.
- Increased number of key political allies who advocated for Travellers in the Dail and Seanad, leading to improved awareness on other Traveller specific issues. By end of 2016 over half of all TDs were publicly supporting Traveller ethnicity, with support from a number of Senators.
- Sustained momentum from ITM Members built continued political pressure. Motion passed at ITM AGM that ethnicity was essential for NTRIS to work led to energised campaigning by ITM members such as on-line petitions, political party motions kept ethnicity as a key political issue.
- ITM continued to lobby at an international level by liaising with the CoE Human Rights Commissioner, the Council of Europe and European Commission, the European Roma Rights centre, the UN Universal Periodic Review (UPR) and European Commission Against Racism
